

Isinlivi a Chugchilán

Time: 4 – 6 horas

Distance: 12,5 kms

The Cloud Forest hostel, for your safety, builds roads and makes the signs **in red and yellow colors. Follow these signs.**

- ✓ Leaving Llullullama, we find the road and go down to the concrete bridge. We cross the bridge and continue for about 200m. Here we have are **2 options:**
 1. We go up to the right until we find a beautiful point of view. Then, we begin to go down through a canyon. The path can be flooded. Keep going down with the river on your right until you find the Wooden Bridge. Cross the bridge and follow the river for 1km until you reach the suspension bridge.
 2. We follow the road. Before reaching the small village, we turn right and go up following the path, about 30 minutes, until we reach a spectacular point of view. We begin to go down to the right. You will pass a cliff on both sides. we have to continue down the canyon until we reach the suspension bridge and cross it.

- ✓ We went up to the road until we reach an intersection. Turn left onto this road and continue for about 700m. You will reach the village of Itualo. Here we have are **2 options:**
 1. We turn right just before the church and we start walking uphill on the small path. We continue on this path until reaching the top and a point of view. We will be at a junction. We take the road at our left and we continue until we reach Cachuco. We must go up to the right along a private path until we reach the main asphalt road. We will walk 2,5KMs along this road to Chugchilán.
 2. We pass through the village and we continue straight on for 1KM until we reach a concrete bridge. We turn right just before this bridge along a small path. We continue for 200m and begin to climb on the right until a farmland. We keep going up until we reach the mirador with the spectacular canyon view. We follow the small grassy and w ego up until we reach the main asphalt road. From here it is 500m on the road and we arrive at Chugchilán.

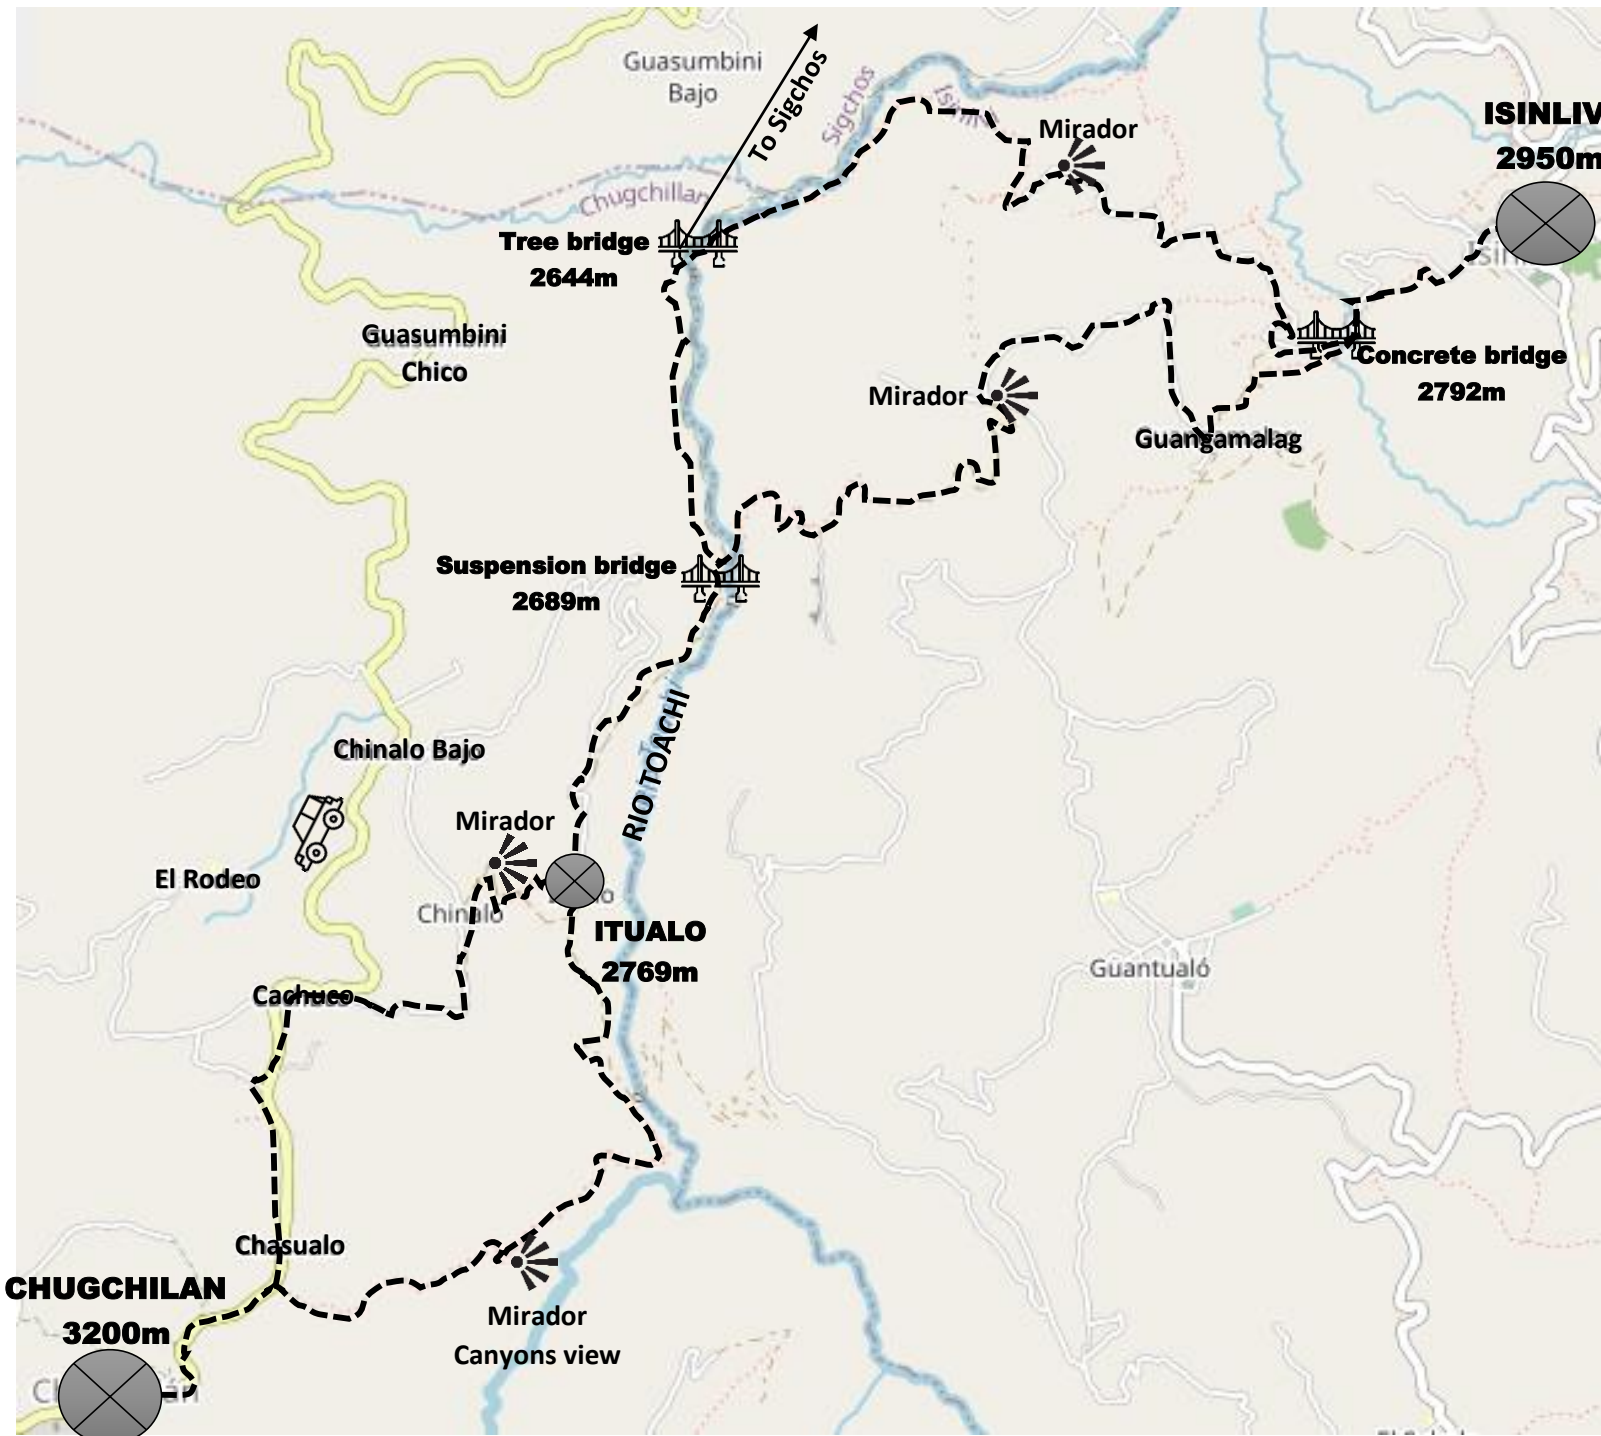

- ✓ Welcome to Chugchilán
